Signs to the City (formerly known as Jarrett Lobley Project) is riding a vibrant momentum for their upcoming 2018 album release and European and North American tours. The band has performed alongside Loverboy, The Winnipeg Blue Bombers, Canadian Music Week, the Fringe Festival, and Pride Winnipeg.

Front-man and family physician, Jarrett Lobley, provides a tangible link of humanity and honesty to the audience with equal measures of restraint and power. Making daily house calls to his inner city patients on his motorcycle, Lobley transitions into the evening creating sounds born out of the simplistic beauty hidden amidst the day.

Earl Pereira has been recruited on bass for the European tour. Earl has toured with The Rolling Stones, AC/DC, The Guess Who, received three Juno nominations, eight Western Canadian Music Awards, and released three certified GOLD records with Canadian act Wide Mouth Mason.
